To: Board of Park Commissioners and Citizens of the Park District of the Park District of Highland Park

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended March 31, 2014.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that is established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Lauterbach and Amen, LLP, Certified Public Accountants, has issued an unqualified ("clean") opinion on the Park District of Highland Park's financial statements for the year ended March 31, 2014. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Park District of Highland Park

The District was founded in 1909 and is located in the City of Highland Park, Illinois along the north shore of Lake Michigan. The District serves the City of Highland Park and a small portion of the Village of Deerfield. The District owns and operates more than 650 acres of land in 44 park areas while also helping other municipal agencies manage some land and is located approximately 25 miles north of Chicago.

The Park District operates under a Board-Director form of government serving a population of approximately 30,000. Educational services for the residents of the District are provided by North Shore School District Number 112 and Township High School District Number 113. Route 41 traverses the District and Interstate 94 is along its western boundary. METRA rail service to downtown Chicago is available with stations in Deerfield, Highland Park, Ft. Sheridan, and Highwood.

The District offers over 3,000 programs annually. These programs include athletics, pre-school, art and dance, ice skating, tennis, swimming, golf, gymnastics, and tennis. The District also offers general youth and adult variety programs throughout its facilities and parks. To support these programs, the District parks contain baseball and softball fields (23), outdoor basketball courts (10), football/soccer fields (14), indoor/outdoor tennis courts (52), disc golf courses (2), and fishing areas (3).

The Comprehensive Annual Financial Report, which follows this transmittal letter, includes all funds of governmental operations and component units based on financial accountability. The accompanying financial statements include only those funds of the Park District, as there are no other organizations for which it has financial accountability. The Park District participates in the Illinois Municipal Retirement Fund (IMRF), the Northern Suburban Special Recreation Association (NSSRA), and the Park District Risk Management Agency (PDRMA). These organizations are not included in this report. However, such statements are available upon request from their respective business offices.

The Board of Commissioners is required to adopt a final budget by no later than three months after the close of the fiscal year. This annual budget serves as the foundation for the Park District of Highland Park's financial planning and control. The budget is prepared by fund and state law prohibits further appropriation at anytime within the same fiscal year. The Board of Commissioners has the authority, after the first six months of the fiscal year, to make transfers between various items in any fund in the appropriation ordinance with a two-thirds (2/3) vote. Additionally, if circumstances warrant it, a supplemental budget and appropriations ordinance can be prepared. Transfers cannot exceed 10%, in the aggregate, of the total amount appropriated for the fund or item that is having funds reallocated.

Local Economy

The City of Highland Park has a well-established reputation as a preeminent community located in the northern corridor of the Chicago metropolitan area. The area encompassing the Park District of Highland Park is an outstanding place in which to live and work as the city has a large residential base and a booming downtown. The residents of Highland Park receive excellent municipal and educational services. From an educational standpoint, over one-third of its residents have an advanced degree and an additional third have a bachelor's degree. This is well above the norm for the County (Lake) as well as the State of Illinois.

From a pure economic position, the District serves a highly affluent community as nearly 60% of its residents live in homes valued in excess of \$500,000 as opposed to a state average of just over 9%. In light of difficult economic conditions, the median household income of \$119,126 represents a slight increase from the prior year.

Long-term Planning

During the fiscal year, the Board of Commissioners has been developing and finalizing a Master Plan, completion date fall of 2014. When completed the Master Plan will guide the operations and capital improvements of the district through 2024. The Master Plan will also challenge the District Board, Staff, and Residents. Despite significant cash reserves, the District is over one hundred years old and many of the District's facilities need significant repair. Funding for the plan will come from a various sources, and will be determined during the planning process.

On April 9, 2013 (and noted in the prior year's report) the District issued \$8,755,000 of Debt Certificates of 2013. The certificates bear interest at a rate of 2.00% to 3.00% and are due in annual installments plus interest through December 15, 2027. The District was able to obtain these rates due to receiving an Aaa rating from Moody's Investor Services.

The district continued to work with the Army Corps of Engineers on the redevelopment of Rosewood Beach. The project is scheduled to be completed by February 2015. The District completed the renovation of the Deer Creek Lobby, the operational equipment replacement at Centennial Ice Arena, while maintaining the district's fleet and completing various additional projects to the parks and facilities.

Beginning with 2014, the fiscal year end of the District will now be December 31st. As such the District is currently operating on a 9 month budget with a year end of December 31, 2014. The next 12 month budget will be for the calendar year 2015.

Other Information

Independent Audit: The District is required by Illinois Compiled Statutes to have an annual audit conducted by an independent certified public accountant selected by the Board of Park Commissioners. The audit firm, Lauterbach & Amen, LLP, Certified Public Accountants' report on the general-purpose financial statements and combining and individual fund statements and schedules are included in the financial section of this report.

Awards: In January the Illinois Association of Park Districts and Illinois Park and Recreation Association awarded the Illinois Distinguished Agency Award to the District. The District had been accredited since 1996 for Excellence in Park and Recreation Management. The desired result of the award is to improve the quality of life for the district residents.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Park District of Highland Park for its comprehensive annual financial report for the fiscal year ended March 31, 2013. This was the twelfth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Affiliations: The District is a member of the National Recreation and Park Association (NRPA), the Illinois Association of Park Districts (IAPD), the Illinois Park and Recreation Association (IPRA), the Park District Risk Management Agency (PDRMA) and the Northern Suburban Special Recreation Association (NSSRA).

The timely preparation of this comprehensive annual financial report was made possible by the dedicated staff of the entire Park District and coordinated by the Finance staff. We would like to express our sincere appreciation for their contributions not only to this report, but also to their commitment of abiding to policies and procedures to ensure the high integrity of the information presented in this financial report. We thank the Board of Park Commissioners for their leadership and support as it relates to the financial operations and policies of the District.

Sincerely,

Liza McElroy

INDEPENDENT AUDITORS' REPORT

July 7, 2014

Members of the Board of Commissioners
Park District of Highland Park
Highland Park, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Park District of Highland Park, Illinois, as of and for the year ended March 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Park District of Highland Park, Illinois, as of March 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Park District of Highland Park, Illinois', financial statements as a whole. The introductory section, individual fund financial statements and schedules, supplemental schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements.

The individual fund financial statements and schedules and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and schedules and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Management's Discussion and Analysis March 31, 2014

Our discussion and analysis of the Park District of Highland Park's financial performance provides an overview of the District's financial activities for the fiscal year ended March 31, 2014. Please read it in conjunction with the transmittal letter, which begins on page iii and the District's financial statements, which begin on page 3.

FINANCIAL HIGHLIGHTS

- The Park District of Highland Park's net position decreased as a result of this year's operations. Net position of the governmental activities decreased by \$618,431 which is approximately a 1.64% decrease from the prior year.
- During the year, government-wide revenues for the primary government totaled \$18,494,196 while expenses totaled \$19,112,627, resulting in a decrease to net position of \$618,431.
- The Park District of Highland Park's net position totaled \$37,080,074 on March 31, 2014, which includes \$20,263,950 net investment in capital assets, \$892,981 subject to external restrictions, and \$15,923,143 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported excess revenue this year of \$62,012 exclusive of net transfers out of \$288,032. The net change in fund balance of \$226,020 brings the fund balance in the General Fund to \$916,691, resulting in a decrease of 19.8%.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 3-5) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements begin on page 6. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a matter similar to a private-sector business. The government wide financial statements can be found on pages 3-5 of this report.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Management's Discussion and Analysis March 31, 2014

USING THIS ANNUAL REPORT – Continued

Government-Wide Financial Statements - Continued

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and government and recreation services. There are no business-type activities reported by the District.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District are reported as governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Management's Discussion and Analysis March 31, 2014

USING THIS ANNUAL REPORT – Continued

Governmental Funds – Continued

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balances sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds, and the Special Recreation Fund, the District's only nonmajor fund.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 6 - 11 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 12 - 37 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's I.M.R.F. employee pension obligations, as well as budgetary comparison schedules for the General Fund and Recreation Fund. These items can be found on pages 38 - 40.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Management's Discussion and Analysis March 31, 2014

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$37,080,074.

	Net Position Governmental Activities	
	2014	2013
Current and Other Assets	\$ 33,989,875	30,910,234
Capital Assets	32,968,664	28,744,429
Total Assets	66,958,539	59,654,663
Long-Term Debt	15,272,080	8,318,182
Other Liabilities/Deferred Inflows	14,606,385	13,637,976
Total Liabilities/Deferred Inflows	29,878,465	21,956,158
Net Position		
Net Investment in Capital Assets	20,263,950	20,340,870
Restricted	892,981	3,165,145
Unrestricted	15,923,143	14,192,490
Total Net Position	37,080,074	37,698,505

A large portion of the District's net position, \$20,263,950 or 54.6%, reflects its investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$892,981 or 2.4%, of the District's net position represents resources that are subject to external restrictions on how they may be used. Essentially, these restrictions represent property taxes levied for a specific purpose. The remaining 42.9%, or \$15,923,143, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Net position of the District's governmental activities decreased by 1.6% (\$37,080,074 in 2014 compared to \$37,698,505 in 2013). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$15,923,143 at March 31, 2014.

Governmental Activities

Revenues for governmental activities totaled \$18,494,196, while the cost of all governmental functions totaled \$19,112,627. This results in a deficit of \$618,431. In 2013, expenses of \$26,546,249 exceeded revenues of \$18,618,165, resulting in a deficit of \$7,928,084. Revenues are essentially flat with the small increase due to an increase in capital grants/contributions. The decrease in expenses is specifically related to the District's decision to pay off its Unfunded Actuarial Accrued Liability to IMRF during 2013 no such payment occurred in 2014.

The following table graphically depicts the major revenue sources of the District. This graph illustrates that, despite not increasing its property tax levy, more than half of the District's revenues come from property tax.

Governmental Activities – Continued

The 'Expenses and Program Revenues Table identifies those governmental functions where program expenses greatly exceed revenues. Although in the government-wide statements expenses normally exceed revenues, general revenues such as property and replacement taxes support the general government expenses, a portion of recreation expenses, and interest expenses.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The ending fund balance when the District's Governmental Funds combined is \$20,756,439 which is \$2,671,743, or 14.8%, greater than last year's total of \$18,084,696. Of that amount, \$20,247,035, of the total is committed, assigned, restricted or nonspendable. The District's intent is to remain true to its fund balance policy that is discussed in the Notes to the Financial Statements, by transferring a portion of the excess balances to the Capital Projects Fund to assure that the District's existing assets are well maintained moving forward. The District transferred \$414,485 from its Recreation Fund to the Capital Projects Fund in excess fund balance to the Capital Projects Fund.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Management's Discussion and Analysis

March 31, 2014

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS – Continued

Governmental Funds – Continued

The General Fund is the chief operating fund of the District. At March 31, 2014, unassigned fund balance in the General Fund was \$608,099, which represents 66.3 percent of the total fund balance of the General Fund. The Board of Commissioners recognizes that the unassigned fund balance is insufficient to cover the Fund Balance Policy and, as part of its fiscal year 2014 budget process, have made changes to rectify that situation.

The Recreation Fund reported a positive change in fund balance for the year of \$1,074,498, to \$5,691,788. This is an increase of 23.3%. This result is due to a decrease in expenditures and transfer as compared to the prior year.

The Capital Projects Fund reported an increase in fund balance of \$2,514,687 to \$13,749,983. This increase is due primarily to the issuance of \$8,755,000 of bonds to support capital improvements.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2014 budget year, the District did not revise the annual operating budget of the general fund. The fund is reported as a major fund, and accounts for the routine park operations of the District. The overall performance of the fund was greater than budgeted. Due to a decrease in expenditures compared to budget of \$371,735 the fund balance at year end was greater than budgeted.

CAPITAL ASSETS AND DEBT ADMINISTRATION – Continued

Debt Administration

At year-end, the District had total outstanding debt of \$15,465,000 as compared to \$7,880,000 the previous year, an increase of 96.2% per cent. The following is a comparative statement of outstanding debt:

	<u>Long-Term Debt Outstanding</u>	
	<u>Governmental</u>	
	<u>Activities</u>	
	<u>2014</u>	<u>2013</u>
General Obligation Bonds	\$ 15,465,000	7,880,000

The increase is the result of the issuance of Bond Series 2013 which was used for capital improvements throughout the District.

The District applied for and received an Aaa rating from Moody's which is reflective of its strong financial base. The current legal debt margin for the District is \$44,611,155.

Additional information on the District's long-term debt can be found in Note 3 on pages 25 - 27 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

As was the case the prior year, the District's tax levy was flat. However, should the economy continue to improve, management is hopeful that recreation revenues will increase. Managing its resources in a conservative manner will force the District to monitor expenses closely. The District anticipates the completion of its Master Plan in late fall which will assist in the prioritization of capital projects and determine how the District will spend its resources.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Office of the Finance Director, Park District of Highland Park, 636 Ridge Road, Highland Park, IL 60035.

Amounts reported for governmental activities in the Statement of Activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the
Statement of Activities the cost of those assets is allocated over their estimated
useful lives and reported as depreciation expense.

Capital Outlays	5,828,023
Depreciation Expense	(1,366,556)

The net effect of various miscellaneous transactions involving capital assets
is to increase net assets

Disposals - Cost	(2,513,732)

Notes to the Financial Statements March 31, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Park District of Highland Park of Illinois (District) was incorporated July 9, 1909. The District operates under a Board-Manager form of government, providing recreation and other services to the residents of Highland Park which include: recreation programs, park management, capital development, and general administration.

REPORTING ENTITY

In determining the financial reporting entity, the District complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the District. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). The District's recreation and general administrative services are classified as governmental activities.

In the government-wide Statement of Net Position, the governmental activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The District's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions (general government, recreation, etc.) These functions are supported by general government revenues (property taxes and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property tax, interest income, etc.). The District does not allocate indirect costs. An administrative service fee is charged by the General Fund to the other operating funds, which is recorded as a transfer.

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. The District's funds are all reported as governmental funds. The emphasis in fund financial statements is on the major funds.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The District electively added funds, as major funds, which either had debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements.

A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General fund is the general operating fund of the District. It accounts for all revenues and expenditures of the District which are not accounted for in other funds. The General Fund is a major fund.

Fund Financial Statements – Continued

Governmental Funds – Continued

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains two special revenue funds. The Recreation Fund, a major special revenue fund, is used to account for the operations of the recreation programs. Financing is provided primarily from an annual property tax levy, and from fees charged for programs and activities.

Debt service funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The Debt Service Fund is treated as a major fund and records the District's general obligation debt activity.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Capital Projects Fund is treated as a major fund and is used to account for financial resources acquired through bond issue which are to be used for improvements to existing park facilities and for maintenance supplies and staff for the general upkeep of all parks within the District.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), and financial position. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Notes to the Financial Statements March 31, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, governmental activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when “measurable and available.” Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The District recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

For purpose of the Statement of Net Position, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agent.

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

PARK DISTRICT OF HIGHLAND PARK, ILLINOIS

Notes to the Financial Statements March 31, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. At year-end, the District only reports transfers.

Prepays/Inventories

Prepays/inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids/inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets purchased or acquired with an original cost of more than \$5,000, are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expenses as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings	25 - 35 Years
Improvements	10 - 20 Years
Machinery and Equipment	3 - 15 Years
Furniture and Fixtures	10 - 20 Years
Vehicles	5 - 10 Years

Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as “terminal leave” prior to retirement or resignation.

All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of “restricted” or “net investment in capital assets.”

BUDGETARY INFORMATION

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- Prior to March 31 the Director submits to the Board of Commissioners a proposed operating budget for the upcoming fiscal year commencing April 1.
- The operating budget includes proposed expenditures and the means for financing.
- The District’s budgetary operations are governed by the appropriation law detailed in the Illinois Park District Code and administered by the Director of Finance.
- Notice is given, and public meetings are conducted, to obtain taxpayer comments.
- The Board may add to, subtract from, or change appropriations, but may not change the form of the budget.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued

BUDGETARY INFORMATION – Continued

- Prior to the end of the first quarter of each fiscal year, the budget is legally enacted through the passage of an annual combined budget and appropriation ordinance.
- Budgets for the General, Special Revenue, Debt Service, and Capital Projects Funds are legally adopted on a basis consistent with GAAP. Expenditures may not legally exceed appropriations at the fund level. Any expenditure in excess of the legally adopted appropriations must be approved by the District Board through a supplemental appropriation. No supplemental appropriations were required during fiscal year 2014.
- After the first six months of any fiscal year, the District Board may, by a two-thirds vote, amend the initially approved appropriation ordinance. Unused appropriations lapse at the end of the fiscal year. Expenditures legally may not exceed the total of appropriations and beginning fund balance at the fund level.
- Management can make transfers between individual expenditure categories of a fund (i.e. services, utilities, etc.) for up to 10% for the budgeted amount, but not alter the total budget of the fund. However, Board of Commissioners approval is required in order for management to make transfers between different funds.
- Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation – is utilized in the Governmental funds during the year. All outstanding encumbrances lapse at fiscal year end.

NOTE 3 – DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The District maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "cash and investments." In addition, investments are separately held by several of the District's funds.

Permitted Deposits and Investments – Statutes authorize the District to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, the Illinois Funds, the Illinois Metropolitan Investment Fund, and the Illinois Park District Liquid Asset Fund.

The Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

The Illinois Metropolitan Investment Fund (IMET) is a non-for-profit investment trust formed pursuant to the Illinois Municipal Code. IMET is managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an Investment Company. Investments in IMET are valued at the share price, the price for which the investment could be sold.

The Illinois Park District Liquid Asset Fund allows Illinois park districts, forest preserves and joint recreational programs to pool their funds for investment purposes. Although not registered with the SEC, the Illinois Park District Liquid Asset Fund does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in the Illinois Park District Liquid Asset Fund are valued at the share price, the price for which the investment could be sold.

Interest Rate Risk, Credit Risk, Concentration Risk and Custodial Credit Risk

Deposits. At year-end, the carrying amount of the District's deposits totaled \$11,403,323 and the bank balances totaled \$11,564,169.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District limits its exposure to interest rate risk by (1) structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and (2) investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools. The maturity of the District's investment in the Illinois Funds, IMET, and the Illinois Park District Liquid Asset Fund is less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Park District's investment policy limits its exposure to credit risk by (1) limiting investments to the safest type of investments, (2) pre-qualifying the financial institutions, brokers/dealers, intermediaries and advisors with which the district will do business, and (3) diversifying the investment portfolio so that potential losses on individual securities will be minimized. At year-end, the District's investment in the Illinois Funds and the Illinois Park District Liquid Asset Fund was rated AAAM by Standard & Poor's and the debt securities ranged from AA+ to AAA (Standard and Poors). The Illinois Metropolitan Investment Trust Convenience Fund is rated AAAf by Standard & Poors and the 1-3 year Fund is rated AAF by Standard & Poors.

DEPOSITS AND INVESTMENTS – Continued

Interest Rate Risk, Credit Risk, Concentration Risk and Custodial Credit Risk – Continued

Concentration Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy limits concentration risk by diversifying investments by (1) limiting investments to avoid overconcentration of securities from a specific issuer or business sector (excluding U.S. Treasuries), (2) limiting investments in securities that have higher credit risks, (3) investing in securities with varying maturities, and (4) continuously investing a portion of the portfolio in readily available funds such as local government investment pools (LGIPs), money market funds or overnight repurchase agreements to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

At March 31, 2014 all of the District's investments are in compliance with the guidelines outlined above in the District's investment policy. At year-end, the District does not have any investment that represent over 5 percent of the total cash and investment portfolio (other than U.S. Government guaranteed obligations).

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires collateral to be held by a neutral third-party, registered on the District's name, priced to the market on a regular basis and be valued at 102% of the uninsured portion of the deposit. At year-end the entire amount of the bank balance of the deposits was covered by federal depository or equivalent insurance.

For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy does not address custodial credit risk for investments. At year-end, the District's investments in the Illinois Funds, IMET, and the Illinois Park District Liquid Asset Fund are not categorizable for custodial credit risk.

PROPERTY TAXES

Property taxes for 2013 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments on or about June 1, and September 1. The County collects such taxes and remits them periodically. The allowance for uncollectible taxes has been stated at 1% of the tax levy, to reflect actual collection experience.

INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund Transfers

Interfund transfers for the year consisted of the following:

Defeased Debt

In prior years, the government defeased general obligation and revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payment on the old bonds. Since the requirements which normally satisfy defeasance, have been met, the financial statements reflect satisfaction of the original liability through the irrevocable transfer to an escrow agent of an amount computed to be adequate to meet the future debt service requirements of the issue. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the government's basic financial statements. Defeased bonds of \$6,655,000 remain outstanding as of the date of this report.

Legal Debt Margin

Chapter 70, Section 1205/6-2 of the Illinois Compiled Statutes provides "...for the payment of land condemned or purchased for parks or boulevards, for the building, maintaining, improving and protection of the same and for the payment of the expenses incident thereto, or for the acquisition of real estate and lands to be used as a site for an armory, any park district is authorized to issue the bonds or notes of such park district and pledge its property and credit therefore to an amount including existing indebtedness of such district so that the aggregate indebtedness of such district does not exceed 2.875% of the value of the taxable property therein, to be ascertained by the last assessment for state and county taxes previous to the issue from time to time of such bonds or notes or, until January 1, 1983, if greater, the sum that is produced by multiplying the district's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979, if a petition, signed by voters in number equal to not less than 2% of the voters of the district, who voted at the last general election in the district, asking that the authorized aggregate indebtedness of the district be increased to not more than .575% of the value of the taxable property therein, is presented to the Board and such increase is approved by the voters of the district at a referendum held on the question."

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Committed Fund Balance. The District reports committed fund balance in the Recreation Fund, a major fund. Formal Board action (ordinance and/or resolution) is required to establish, modify, or rescind a fund balance commitment. The District's Board has committed these funds through formal Board action, to future culture and recreation expenditures.

Assigned Fund Balance. The District reports assigned fund balance in the Capital Projects Fund, a major fund. The District's Board, through the District's adopted fund balance policy, has given authority to management (Director of Finance) to assign these funds to future park improvement projects and equipment and vehicle purchases based on approved Board/management expenditures as determined through the annual budget process.

Minimum Fund Balance Policy. The District's policy manual states that the General Fund should maintain a minimum assigned fund balance level of three to four months (25-33%) and unassigned fund balance of four months (33%) of annual budgeted expenditures not including capital, debt service and interfund transfers. The District's policy manual states that the Recreation Fund should maintain a minimum assigned fund balance equal to 25% of budgeted expenditures not including capital, debt service and interfund transfers. Fund balances in excess of said levels may be transferred to the Capital Projects Fund at the discretion of the Board.

NOTE 4 – OTHER INFORMATION – Continued

RISK MANAGEMENT – Continued

Park District Risk Management Agency (PDRMA) – Continued

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body.

The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigations and settlement, and to follow risk management procedures as outlined by PDRMA. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's Property/Casualty Program balance sheet at December 31, 2013 and the statement of revenues and expenses for the period ending December 31, 2013.

Assets	\$60,509,769
Liabilities	20,225,423
Member Balances	40,284,346
Revenues	20,737,466
Expenditures	17,177,774

The District's portion of the overall equity in the pool is 3.052% or \$1,229,567.

Since 97% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

RISK MANAGEMENT -- Continued

Park District Risk Management Agency (PDRMA) Health Program

Since September 1, 1992, the District has been a member of the Park District Risk Management Agency (PDRMA) Health Program, a health insurance pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$250,000. Until January 1, 2001 the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of the PDRMA Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and PDRMA Health Program is governed by a contract and by-laws that have been adopted by a resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

The following represents a summary of PDRMA's Health Program balance sheet at December 31, 2013 and the statement of revenues and expenses for the period ending December 31, 2013.

Assets	\$12,590,279
Liabilities	5,373,024
Member Balances	7,217,255
Revenues	29,398,825
Expenditures	28,975,036

A large percentage of PDRMA's liabilities are reserves for losses and loss adjustment expenses, which are based on an actuarial estimate of the ultimate losses incurred.

POST-EMPLOYMENT BENEFITS

In addition to providing pension benefits, the District provides certain health care insurance benefits for retired employees. In accordance with the personnel policy substantially all of the District's employees may become eligible for those benefits if they reach normal retirement age while working for the District. The retirees pay 100 percent of the annual premium for health insurance. The District's health insurance provider, PDRMA utilizes community based rates, which adjust for the demographics of the District's pool of participants, including age, etc. Therefore, there is no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*. Additionally, the amount related to the explicit cost of former employees is immaterial to the financial statements.

JOINT VENTURE

Northern Suburban Special Recreation Association (NSSRA)

The District, along with eleven other park districts, has entered into a joint agreement to provide cooperative recreational programs and other activities for handicapped and impaired individuals. Each member agency shares equally in the Association and generally provides funding based on up to .0400 cents per \$100 of its equalized assessed valuation. The District contributed \$318,003 to the Association during the current fiscal year. The District does not have a direct financial interest in the Association and, therefore, its investment therein is not reported within the financial statements. Upon dissolution of the Association, the assets, if any, shall be divided amount the members in accordance with an equitable formula as determined by a unanimous vote of the Board of Directors of the Association.

A complete, separate financial statement for the Association can be obtained from the Association's administrative offices at 3104 MacArthur Blvd., Northbrook, Illinois 60062.

CONTINGENT LIABILITIES

Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the District.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLAN

Plan Descriptions, Provisions and Funding Policies

The District contributes to the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan; those provisions can only be amended by the Illinois General Assembly. IMRF provides retirement, disability, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. IMRF issues a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained at www.imrf.org.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Participating members hired before January 1, 2011 who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3 percent of their final rate (average of the highest 48 consecutive months' earnings during the last 10 years) of earnings, for each year of credited service up to 15 years, and 2 percent for each year thereafter. For participating members hired on or after January 1, 2011 who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3 percent of their final rate (average of the highest 96 consecutive months' earnings during the last 10 years) of earnings, for each year of credited service, with a maximum salary cap of \$106,800 at January 1, 2011. The maximum salary cap increases each year thereafter. The monthly pension of a member hired on or after January 1, 2011, shall be increased annually, following the later of the first anniversary date of retirement or the month following the attainment of age 62, by the lesser of 3% or ½ of the consumer price index. Employees with at least 10 years of credited service may retire at or after age 62 and receive a reduced benefit. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute. Employees participating in the plan are required to contribute 4.50 percent of their annual covered salary to IMRF. The employees' contribution rate is established by state statute. The District is required to contribute the remaining amount necessary to fund the IMRF plan as specified by statute. The employer contribution and annual required contribution rate for calendar year 2013 was 13.86 percent.

Funding Policy and Annual Pension Cost

For March 31, 2014, the District's annual pension cost of \$931,427 was equal to the District's required and actual contributions. The required contribution was determined as part of the December 31, 2011 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 7.5% investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.00% a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4% to 10.0% per year, depending on age and service, attributable to seniority/merit, (d) post-retirement benefit increases of 3% annually and (e) an inflation rate of 3%. The actuarial value of IMRF assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20% corridor between the actuarial and market value of assets. IMRF's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at March 31, 2014 was 30 years.

Trend Information

Employer annual pension cost (APC), actual contributions and the net pension obligation (NPO) are as follows. The NPO is the cumulative difference between the APC and the contributions actually made.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND

The General Fund accounts for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than capital projects funds) that are legally restricted to expenditure for specified purposes.

Recreation

The Recreation Fund is used to account for the operations of the recreation programs. Financing is provided primarily from an annual property tax levy, and from fees charged for programs and activities.

Special Recreation

The Special Recreation Fund is used to account for revenues derived from a specific annual property tax levy and expenditures of these monies to the Northern Suburban Special Recreation Association to provide special recreation programs for the physically and mentally handicapped.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

CAPITAL PROJECTS FUND

The Capital Projects Fund is used to account for financial resources acquired through bond issue which are to be used for improvements to existing park facilities and for maintenance supplies and staff for the general upkeep of all parks within the District.
