

# The Preserve of Highland Park

## Exciting Changes Ahead!

Construction is beginning at The Preserve of Highland Park. Features will include improved pathways, a pond overlook with restored shoreline and vegetated swales, specialized gardens, seating and play areas that highlight the environmental benefits the park provides.

During construction, path closures will be posted. The map above shows routes that will be open, except for temporary closures due to work in the area. Visitors are asked to remain on designated paths and keep dogs leashed for safety. For more information and ongoing updates, go to [pdhp.org/hpcc2nature/](http://pdhp.org/hpcc2nature/)

Funding for this project is provided in part by the Illinois Department of Natural Resources and the Illinois Environmental Protection Agency through Section 319 of the Clean Water Act.
