Certificate of Achievement for Excellence in Financial Reporting

Presented to

Park District of Highland Park Illinois

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

December 31, 2021

Christopher P. Morrill

Executive Director/CEO

May 31, 2023

To: Board of Park Commissioners and Citizens of the Park District of Highland Park

State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2022.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal controls that are established for this purpose. Because the cost of internal controls should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Sikich LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the Park District of Highland Park's financial statements for the year ended December 31, 2022. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Park District of Highland Park

The District was founded in 1909 and is located in the City of Highland Park, Illinois along the north shore of Lake Michigan. The District serves the City of Highland Park and a small portion of the Village of Deerfield. The District owns and/or operates approximately 800 acres of land with 45 park areas, while also helping other municipal agencies manage some land and is located approximately 25 miles north of Chicago.

The Park District operates under a Board-Director form of government serving a population of approximately 30,000. Educational services for the residents of the District are provided by North Shore School District 112 and Township High School District 113. Route 41 traverses the District and Interstate 94 is along its western boundary. METRA rail service to downtown Chicago is available with 3 stations in Highland Park, including downtown, Ravinia and Breaside.

The District usually offers over 3,000 programs annually. However, due to the continued pandemic during 2022, especially early in the year, only 2,123 programs were offered. These programs include athletics, pre-school, art and dance, ice skating, tennis, swimming, golf, gymnastics, and tennis. The District also offers general youth and adult variety programs throughout its facilities and parks. To support programs and services to the community, the District maintains approximately 800 acres of parkland, natural areas, beaches and recreation amenities including baseball and softball fields (23), outdoor basketball courts (full and half - 16), football/soccer fields (23), indoor/outdoor tennis courts (38), pickleball courts (20), disc golf courses (2), and fishing areas (4). The District operates 10 recreation facilities ranging from an ice center to a nature center.

The Annual Comprehensive Financial Report, which follows this transmittal letter, includes all funds of governmental operations and component units based on financial accountability. The accompanying financial statements include only those funds of the Park District, as there are no other organizations for which it has financial accountability. The Park District participates in the Illinois Municipal Retirement Fund (IMRF), the Northern Suburban Special Recreation Association (NSSRA), and the Park District Risk Management Agency (PDRMA). These organizations are not included in this report. However, such statements are available upon request from their respective business offices.

The Board of Park Commissioners is required to adopt a final budget and appropriation ordinance by no later than three months after the close of the fiscal year. This annual budget serves as the foundation for the Park District of Highland Park's financial planning and control. The budget is prepared by fund and state law prohibits further appropriation at any time within the same fiscal year. The Board of Commissioners has the authority, after the first six months of the fiscal year, to make transfers between various items in any fund in the appropriation ordinance with a two-thirds (2/3) vote. Additionally, if circumstances warrant it, a supplemental budget and appropriations ordinance can be prepared. Transfers cannot exceed 10%, in the aggregate, of the total amount appropriated for the fund or item that is having funds reallocated.

Local Economy

The City of Highland Park has a well-established reputation as a preeminent community located in the northern corridor of the Chicago metropolitan area. The area encompassing the Park District of Highland Park is an outstanding place in which to live and work as the city has a large residential base and a successful downtown. The residents of Highland Park receive excellent municipal and educational services. From an educational standpoint, over one-third of its residents have an advanced degree and an additional 48% have a bachelor's degree. This is well above the norm for the County (Lake) as well as the State of Illinois.

From a pure economic position, the District serves a highly affluent community as the median value of homes is \$650,000 as opposed to a state average of \$228,698. The median household income of \$153,226 is approximately 211% higher than the state's median household income.

Long-term Planning

GreenPrint 2024, the District's comprehensive master plan, was adopted at the December 2015 Regular Board Meeting. It establishes a clear set of goals, best practices and standards for all Park District facilities, open space, and programs. Since adoption, numerous initiatives have been addressed including the creation of the Parks Foundation of Highland Park, the Athletic Field Master Plan, the Lakefront Master Plan, the Beach Management Plan, and various Site Master Plans. Major capital repair and replacement initiatives from the Park District's Capital Plan were performed in 2022 including bluff restoration at Millard Park; path repair at Moraine Park; playground replacement at Sunset Woods Park; renovation at Centennial Ice Arena including ice rink replacement; lobby exhibit improvements and parking lot replacement at Heller Nature Center; concrete resurfacing, pump, sound system and drain replacement, and slide structure repairs at Hidden Creek Aqua Park; breakwater and boat ramp replacement at Park Avenue Beach and Boating Facility; replacement of cart paths, bridges, and furniture at Sunset Valley Golf Club.

Working with the City of Highland Park, the District purchased the Highland Park Country Club property in 2018 and began the transformation to a passive recreational open space. This conversion project created a large natural open area with walking paths and nature play amenities in the center of town for all to enjoy. Construction began in 2020 and was completed in 2022.

During 2019, a community Attitude and Interest Survey was completed. Information obtained from the survey was used to update GreenPrint 2024 to ensure that resources are aligned with current and future resident needs, community values, and the District's changing demographics.

Other Information

Independent Audit: The District is required by Illinois Compiled Statutes to have an annual audit conducted by an independent certified public accountant selected by the Board of Park Commissioners. The audit firm, Sikich LLP, Certified Public Accountants' report on the general-purpose financial statements and combining and individual fund statements and schedules are included in the financial section of this report.

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Park District of Highland Park for its annual comprehensive financial report for the fiscal year ended December 31, 2021. This was the thirty third consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

In 2022, the Park District of Highland Park received the following awards:

- IPRA Chairman's Award Staff & Board (related to the Highland Park Shooting)
- IPRA Outstanding Special Event Award (Día De Los Muertos)
- IPRA 1st Place Website Design (Park District of Highland Park)
- IPRA 2nd Place Logo Design (The Preserve)
- IAPD 1st Place Photography (Nature)

Affiliations: The District is a member of the National Recreation and Park Association (NRPA), the Illinois Association of Park Districts (IAPD), the Illinois Park and Recreation Association (IPRA), the Park District Risk Management Agency (PDRMA) and the Northern Suburban Special Recreation Association (NSSRA).

The timely preparation of this comprehensive financial report was made possible by the dedicated staff of the entire Park District and coordinated by the Finance staff. We would like to express our sincere appreciation for their contributions not only to this report, but also to their commitment of abiding to policies and procedures to ensure the high integrity of the information presented in this financial report. We thank the Board of Park Commissioners for their leadership and support as it relates to the financial operations and policies of the District.

Mai Im Peters

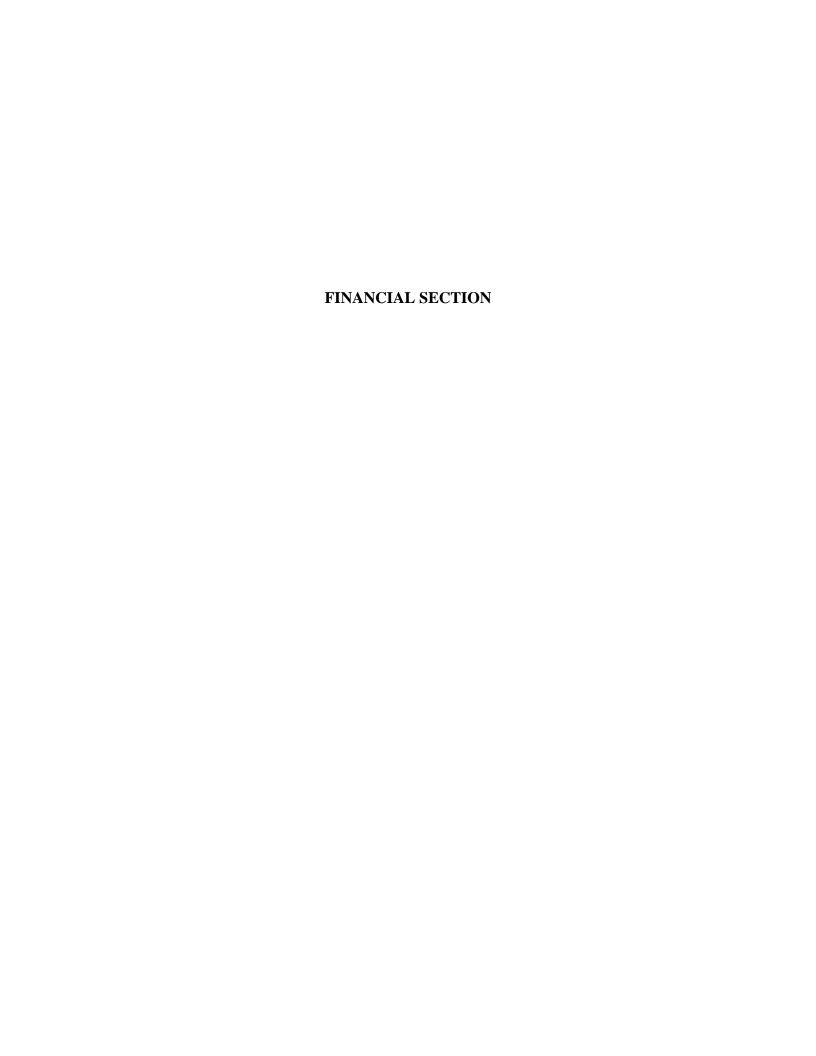

Sincerely,

Brian Romes

INDEPENDENT AUDITOR'S REPORT

Board of Park Commissioners Park District of Highland Park Highland Park, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Park District of Highland Park, Highland Park, Illinois (the District), as of and for the year ended December 31, 2022, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Park District of Highland Park, Highland Park, Illinois as of December 31, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under these standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

The District adopted GASB Statement No. 87, *Leases*, which established a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions.

Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections and supplemental schedules as listed in the table of contents, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Sikich LLP

Naperville, Illinois May 31, 2023

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management's Discussion and Analysis December 31, 2022

Our discussion and analysis of the Park District of Highland Park's financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2022. Please read it in conjunction with the transmittal letter, which begins on page iv and the District's financial statements, which begin on page 5.

FINANCIAL HIGHLIGHTS

- The Park District of Highland Park's net position increased \$4,011,134, which is approximately 44% less than the prior year increase, as a result of operations.
- During the year, government-wide revenues for the primary government totaled \$26,640,556 while expenses totaled \$22,629,422, resulting in an increase to net position of \$4,011,134.
- The Park District of Highland Park's net position totaled \$70,723,393 on December 31, 2022, which includes \$38,710,356 net investment in capital assets, \$375,573 subject to external restrictions, and \$31,637,464 unrestricted net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported excess revenue for the year of \$1,048,582 exclusive of other financing sources (uses) of \$(1,558,518). The net change in fund balance of (\$509,936) brings the fund balance in the General Fund to \$4,827,066, resulting in a decrease of 9.6%.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 5 - 6) provide information about the activities of the District as a whole and present a longer-term view of the District's finances. Fund financial statements begin on page 7. For governmental activities, these statements tell how services were financed in the short term as well as what remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The government wide financial statements can be found on pages 5 - 6 of this report.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

Management's Discussion and Analysis December 31, 2022

USING THIS ANNUAL REPORT – Continued

Government-Wide Financial Statements – Continued

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and government and recreation services. There are no business-type activities reported by the District.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District are reported as governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds, and the Special Recreation Fund, the District's only nonmajor fund.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 7 - 12 of this report.

Management's Discussion and Analysis December 31, 2022

USING THIS ANNUAL REPORT – Continued

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 13 - 35 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's IMRF employee pension obligations, Other Postemployment Benefit Plan obligations, as well as budgetary comparison schedules for the General Fund and Recreation Fund. These items can be found on pages 36-42.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the District, assets/deferred outflows exceeded liabilities/deferred inflows by \$70,723,393.

•	Net Position							
	2022	2021						
Current and Other Assets	\$ 58,613,84	4 \$ 72,134,271						
Capital Assets	60,245,70	0 54,620,956						
Total Assets	118,859,54	4 126,755,227						
Deferred Outflows	4,939,68	4 527,960						
Total Assets/ Deferred Outflows	123,799,22	8 127,283,187						
Long-Term Debt	33,080,46	3 35,563,254						
Other Liabilities	5,369,67	4 3,438,054						
Total Liabilities	38,450,13	7 39,001,308						
Deferred Inflows	14,625,69	8 21,569,620						
Total Liabilities/ Deferred Inflows	53,075,83	5 60,570,928						
Net Investment in Capital Assets	38,710,35	6 37,566,498						
Restricted	375,57	3 316,363						
Unrestricted	31,637,46	4 28,829,398						
Total Net Position	70,723,39	3 66,712,259						

Management's Discussion and Analysis December 31, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

A large portion of the District's net position, \$38,710,356 or 54.7%, reflects its investment in capital assets (for example, land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$375,573 or .5%, of the District's net position represents resources that are subject to external restrictions on how they may be used. Essentially, these restrictions represent property taxes levied for a specific purpose. The remaining 44.7%, or \$31,637,464, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

	Changes in Net Position					
		2022		2021		
Revenues						
Program Revenues						
Charges for Services	\$	10,608,738	\$	9,319,930		
Capital & Operating Grants/Contributions		451,871		890,948		
General Revenues						
Property Taxes		14,026,903		13,529,634		
Replacement Taxes		554,810		274,203		
Other General Revenues		998,234		335,200		
Total Revenues		26,640,556		24,349,915		
Expenses						
General Government		6,600,392		4,138,386		
Recreation		15,088,507		12,557,844		
Interest on Long-Term Debt		940,523		528,904		
Total Expenses		22,629,422		17,225,134		
Change in Net Position		4,011,134		7,124,781		
Net Position-Beginning		66,712,259		59,587,478		
Net Position - Ending		70,723,393		66,712,259		

Management's Discussion and Analysis December 31, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Net position of the District's governmental activities increased by 6.01% to \$70,723,393 at December 31, 2022 compared to \$66,712,259 at December 31, 2021. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$31,637,464 at December 31, 2022.

Governmental Activities

Revenues for governmental activities totaled \$26,640,556, while the cost of all governmental functions totaled \$22,629,422. This resulted in a gain of \$4,011,134. For the year ended December 31, 2021, revenue of \$24,349,915 exceeded expenses of \$17,225,134, resulting in a surplus of \$7,124,781. During 2022, revenues increased due to recapture taxes being distributed by Lake County to the District for an amount in excess of \$200,000 versus none being distributed in 2021. Additionally, other general revenues increased by approximately \$400,000 due to increased interest rates and more aggressive investing into short term certificates of deposit as cash flows have become more certain with the easing of the pandemic. Furthermore, other general revenues increased over the prior year in the capital projects fund by over \$200,000, primarily due to impact fees and a new licensing agreement. Finally, charges for services increased as the District experienced a return to near pre-covid levels of activity at most facilities.

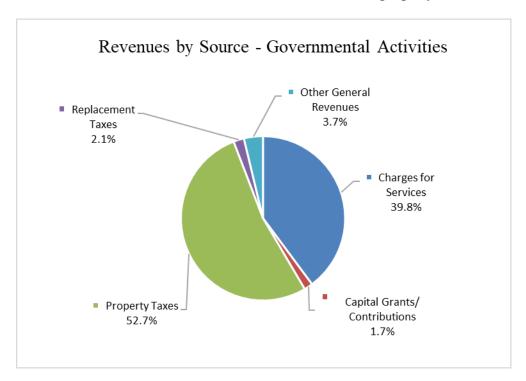

With the increase in services, the District also saw an increase in expenses to provide those services. Like many places in the country, the District was very short staffed during 2021, thus causing significant savings in salaries, insurance and pension costs. Congruently, like other employers in 2022, the District increased wages of current staff to be compliant with the \$1 per hour increase in the minimum wage law effective January 1, 2022, and also to encourage staff not to leave for positions elsewhere. Salaries increased by as much as ten percent in order to retain and attract new talent. Additionally, with the increased salaries, the District was able to fill many open positions, thus further increasing the salary, insurance and pension expenses of the District. The previously locked in natural gas rate went out for bid with a resulting significant increase. Inflation also caused increases in several expenses, including gasoline, transportation and materials and supplies. The inflation caused the landscape and maintenance expenses of the District to come in over budget. Finally, with the issuance of new debt in late 2021, interest on long term debt for 2022 greatly increased.

Management's Discussion and Analysis December 31, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Governmental Activities – Continued

The following chart graphically depicts the major revenue sources of the District. This graph illustrates that more than half of the District's revenues come from property tax.

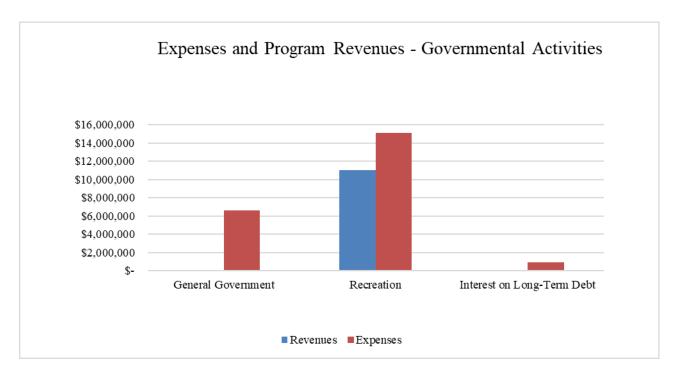

The Expenses and Program Revenues Chart identifies those governmental functions where program expenses greatly exceed revenues. Although in the government-wide statements expenses normally exceed revenues, general revenues such as property and replacement taxes support the general government expenses, a portion of recreation expenses, and interest expenses. During 2022, expenses increased at a greater rate than revenue, resulting in a smaller than prior year change in net position.

Management's Discussion and Analysis December 31, 2022

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Governmental Activities – Continued

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The ending fund balance when the District's Governmental Funds are combined is \$36,116,382 which is \$3,716,686, or 9.3%, less than last year's total of \$39,833,068. Of that amount, \$24,712,881 of the total is either assigned or unassigned. The District's intent is to remain true to its fund balance policy that is discussed in the Notes to the Financial Statements, by transferring a portion of the excess balances to the Capital Projects Fund to assure that the District's existing assets are well maintained moving forward. The District transferred \$3,000,000 from the Recreation Fund to the Capital Projects Fund in excess fund balance. Additionally, the District transferred \$1,000,000 from the General Fund to the Capital Projects Fund in excess fund balance.

Management's Discussion and Analysis December 31, 2022

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS - Continued

Governmental Funds – Continued

The General Fund is the chief operating fund of the District. At December 31, 2022, unassigned fund balance in the General Fund was \$2,390,045, which represents 49.5% of the total fund balance of the General Fund. The overall fund balance decreased during the year by roughly \$500,000, as the District budgeted to transfer and did transfer \$1,000,000 from the General Fund to the Capital Projects Fund, which represented excess fund balance that had accumulated over the past several years.

The Recreation Fund is made up of the Park Avenue Recreation Subfund and the Recreation Fund. The Recreation Fund reported a net positive change in fund balance at December 31, 2022 of \$213,227, increasing the fund balance to \$6,727,049. This is an increase of 3.3%. This increase over the prior year was relatively flat and intentional, as the District decided that enough excess fund balance existed in the Recreation Fund from accumulations over the past few pandemic years and increased its originally budgeted transfer to the Capital Projects Fund from \$2,000,000 to \$3,000,000. Due to the pandemic, the District had reacted by maintaining larger than usual operating cash on hand until operations could return to normal in order to ensure that all debt service requirements would be funded, as well as any emergency maintenance at facilities or properties. Prior to the transfer in 2022, the District showed an excess of revenues over expenditures consistent with the previous year. Largely due to inflation, the costs associated with services provided rose greater than the related charges for those services.

The Debt Service Fund reported a decrease of \$2,097, to \$41,123. This minimal decrease in fund balance was more typical with normal operations of the fund. The significant change in 2021 was due to significant property tax receipts not coming into the District during 2020, and ultimately being collected in April of 2021. This was a result of Lake County pushing back tax payment deadlines because of the Coronavirus Pandemic during 2020. As a result, the fund showed a much larger than normal net change in fund balance in 2021. The fund balance in the Debt Service Fund is restricted for future debt service payments.

The Capital Projects Fund reported a decrease in fund balance of \$3,479,187, to \$24,186,694. This decrease is due to the spending of a net debt issuance of \$17,236,240 in late 2021. The debt issuance is being used to fund capital projects across the District, largely in order to improve or expand parks and facilities.

GENERAL FUND BUDGETARY HIGHLIGHTS

During 2022, the District did not revise the annual operating budget of the General Fund. The fund is reported as a major fund, and accounts for the routine park operations of the District. The overall performance of the fund was greater than budgeted. The actual revenues for the year total \$6,626,761, compared to budgeted revenue of \$5,973,016. The \$653,745 difference is largely due to the underbudgeted receipt of replacement taxes of \$554,810. \$374,810 more in replacement taxes was received versus the budget in 2022. Additionally, the overage in revenue is also due to greater collection of property taxes collected, including recapture taxes, than budgeted, in the total amount of \$171,970.

Management's Discussion and Analysis December 31, 2022

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS – Continued

General Fund Budgetary Highlights – Continued

Expenditures had a favorable budget variance by \$521,703 and this was largely due to over budgeting related to insurance and services. The District struggled to fill open staff positions during 2022 and this is seen in actual salary, insurance and pension contribution expenses. Furthermore, services expenses were also curtailed due to staff shortages. It should be noted that as the year progressed, more open positions were eventually filled.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of December 31, 2022 was \$60,245,700 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements, equipment, and vehicles. With the implementation of GASB 87, the District reports \$20,951 of intangible capital assets (net of accumulated amortization). The intangible capital assets are associated with the District's right-to-use equipment acquired under lease agreements.

		Capital Assets Net of Depreciation 2022 202						
Land	\$	3,748,634	3,748,634					
Construction in Progress		7,506,323	2,991,359					
Buildings		24,197,791	24,998,521					
Improvements		20,093,883	17,860,460					
Equipment		4,508,395	4,772,841					
Vehicles		169,723	249,141

\$ 4,514,964
55,213
3,632,009
273,385
43,876
8,519,447
\$

Additional information on the District's capital assets can be found in note 4 on page 22 of this report.

Management's Discussion and Analysis December 31, 2022

CAPITAL ASSETS AND DEBT ADMINISTRATION – Continued

Debt Administration

At year-end, the District had total outstanding debt of \$28,860,000 as compared to \$30,965,000 the previous year, a decrease of 6.8%. The following is a comparative statement of outstanding debt:

	Long-Term								
_	Debt Outstanding								
		2022		2021					
_									
Debt Certificates	\$	18,960,000	\$	19,815,000					
General Obligation Bonds		9,900,000		11,150,000					
		28,860,000		30,965,000					

The District reports \$43,876 lease payable balance at December 31, 2022. Additional information on the District's long-term debt can be found in Note 5 on pages 23 - 25 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Through conservative efforts to maintain its reserves and careful financial planning, the District's financial position continues to remain strong. Many trends and economic factors which can affect the future operations of the District are considered during budgeting and long-range planning. The District is committed to maintaining reserves and is continually reviewing ways to improve its capital assets and strong financial position to provide residents with excellent programs and facilities. A community Attitude and Interest Survey was completed in 2019. The information received from this study will be used for future programming and capital planning, to align the District's resources with the needs of the community. There are several additional major factors that the Park District has been dealing with and will address in the upcoming budget year as well:

- The continuing negative effect of the tax cap on the District's property tax revenue.
- Systematic increase in the minimum wage over the next few years.
- Difficulty in recruiting and retaining qualified full and part-time staff.
- Full-time and part-time compensation plans have been revised and pay range adjustments have been made. The District needs to be able to absorb those extra costs.
- Escalating inflation.
- Shortages of parts and general supplies causing increased cost of projects and delays in completion.
- Rising group health insurance costs.
- Increased competition from private industry for participants and users.
- COVID-19 implications remain at the fitness center.
- Determining where administrative staff, gymnastics program, etc. should be housed.
- Additional capital funding.
- Effects of climate change at our four lakefront properties, as noted in the beach management plan.
- Investing in safety and security infrastructure, employee onboarding, and customer service.

Management's Discussion and Analysis December 31, 2022

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to Office of the Finance Director, Park District of Highland Park, 636 Ridge Road, Highland Park, IL 60035.

NOTES TO FINANCIAL STATEMENTS

December 31, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Park District of Highland Park, Highland Park, Illinois (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Reporting Entity

The District is a body corporate and politic established under Illinois Compiled Statutes (ILCS) incorporated in 1909. The District operates under a Board-Manager form of government, providing recreation and other services to the residents of the City of Highland Park including recreation programs, park management, capital development and general administration. The District has a separately elected board. The District is considered to be a primary government as defined by GASB Statement No. 14 and No. 61, since it is legally separate and fiscally independent. The accompanying basic financial statements present the District only since the District does not have component units. The Parks Foundation of Highland Park, while a potential component unit, is not significant to the District and, therefore, has been excluded from its reporting entity.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Funds are classified into the following categories: governmental, proprietary and fiduciary. The District does not have any proprietary or fiduciary funds.

Governmental funds are used to account for all or most of a government's general activities, including the collection and disbursement of restricted, committed or assigned monies (special revenue funds), the funds restricted, committed or assigned for the acquisition or construction of capital assets (capital projects funds) and the funds restricted for the servicing of governmental long-term debt (debt service funds). The General Fund (corporate) is used to account for all activities of the government not accounted for in some other fund.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. The effect of material interfund activity, other than interfund service transactions, has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support. The District does not report any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Contributions of land by developers under land/cash ordinances are reported as capital grants and contributions on the statement of activities.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those accounted for in another fund.

The Recreation Fund, a special revenue fund, is used to account for revenue and expenditures related to recreation programs funded by a tax levy and user fees.

The Capital Projects Fund is used to account for the acquisition and construction of major capital facilities.

The Debt Service Fund is used to account for the accumulation of resources for and the payment of principal and interest on governmental activities long-term debt.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the operation of these activities/funds are included on the statement of net position. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Program revenues consist of user fees and other charges for services, operating grants and capital grants.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (60 days). The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment is due, unless due the first day of the following fiscal year.

Those revenues susceptible to accrual are property taxes, interest revenue and charges for services.

The District reports deferred/unearned/unavailable revenue on its financial statements. Deferred/unearned/unavailable revenues arise when potential revenue does not meet both the measurable and available criteria for recognition in the current period for governmental funds or earned at the government-wide level. Deferred/unearned/unavailable revenues also arise when resources are received by the government before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the government has a legal claim to the resources by meeting all eligibility requirements, the deferred inflows of resources or liability is removed from the financial statements and revenue is recognized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Investments

Investments with maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with maturity greater than one year at time of purchase, if any, are stated at fair value. The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. As of December 31, 2022, all of the District's investments are investment pools carried at amortized cost in accordance with GASB Statement No. 79.

f. Inventories

Inventories consist of amounts available for resale and are accounted for using the consumption method. Inventories are valued at cost on the first-in/first-out (FIFO) method.

g. Prepaid Expenses/Items

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid expenses/items using the consumption method. Such amounts are offset by nonspendable fund balance for prepaid expenses/items in the fund financial statements.

h. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., bike trails, paths and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$10,000 to \$250,000, tangible in nature and have an estimated useful life in excess of one year. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings Improvements Equipment Vehicles	25 - 35 10 - 20 3 - 15 5 - 10

i. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

j. Compensated Absences

The District accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement or resignation. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Property Taxes

The District's property taxes are required to be levied by ordinance. A certified copy of the levy ordinance must be filed with the county clerk no later than the last Tuesday in December of each year. Taxes are due and collectible one-half in June and one-half in September of the following year. Property taxes attach as an enforceable lien on property as of January 1. Property taxes which have been levied, but are not due before the end of the fiscal year are recorded as receivable. The entire receivable is offset by unavailable/deferred property tax revenue as they are intended to finance the subsequent fiscal year.

1. Net Position/Fund Balances

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Commissioners, which is considered the District's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Commissioners. The Board of Commissioners would also take action to modify or rescind committed fund balance, if applicable. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Executive Director and Director of Finance through the approved fund balance policy of the District. Any residual fund balance in the General Fund is reported as unassigned. Deficit fund balances in other governmental funds are also reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending, the District considers committed funds to be expended first followed by assigned and then unassigned funds.

The District's policy manual states that the General Fund should maintain a minimum assigned fund balance level of three to four months and unassigned fund balance of four months of annual budgeted expenditures not including capital, debt service and interfund transfers. The District's policy manual states that the Recreation Fund should maintain a minimum assigned fund balance equal to 25% of budgeted expenditures not including capital, debt service and interfund transfers. Fund balances in excess of said levels may be transferred to the Capital Projects Fund at the discretion of the Board of Commissioners.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Net Position/Fund Balances (Continued)

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the District's investment in the book value of capital assets, less any outstanding debt that was issued to construct or acquire the capital asset.

m. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

n. Interfund Transactions

Reciprocal interfund service transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as transfers.

o. Interfund Receivables/Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other fund" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans).

p. Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS

ILCS and the District's investment policy authorize the District to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, The Illinois Funds (IL Funds), the Illinois Metropolitan Investment Fund (IMET) and the Illinois Park District Liquid Asset Fund (IPDLAF). The money market mutual funds (IL Funds, IMET, IPDLAF) are not subject to custodial credit risk for investments.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

The Illinois Park District Liquid Asset Fund allows Illinois park districts, forest preserves and joint recreational programs to pool their funds for investment purposes. Investments in the Illinois Park District Liquid Asset Fund are valued at the share price, the price for which the investment could be sold.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral with a fair value of 102% of all bank balances in excess of federal depository insurance with the collateral held by a third party in the District's name.

Interest rate risk is the risk that change in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds.

Investments

The District limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and The Illinois Park District Liquid Asset Fund. The Illinois Park District Liquid Asset Fund is rated AAAm.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. The District's investment policy does not address custodial credit risk for investments.

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy limits concentration risk by diversifying investments by limiting investments to avoid overconcentration of securities from a specific issuer or business sector, limiting investments in securities that have higher credit risks, investing in securities with varying maturities, and continuously investing a portion of the portfolio in readily available funds such as local government investment pools, money market funds, or overnight repurchase agreements to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

3. PROPERTY TAX CALENDAR

The following information gives significant dates on the property tax calendar of the District.

- The property tax lien date is January 1;
- The annual tax levy ordinance for 2022 was passed December 14, 2022;
- Property taxes are due to the County Collector in two installments, June 1 and September 1; and
- Property taxes for 2022 are normally received monthly beginning in May and generally ending by November 2023.

The 2022 tax levy, which attached as an enforceable lien on property as of January 1, 2022, has been recorded as a receivable as of December 31, 2022, as the tax was levied by the District in December 2022.

NOTES TO FINANCIAL STATEMENTS (Continued)

4. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2022 was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances

Long-term debt at December 31, 2022 is comprised of the following:

General Obligation Bonds

The District uses general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

	Total	Current
	 Outstanding	Portion
2017 General Obligation Limited Tax Park Bond		
\$8,635,000 General Obligation Limited Tax Park Bond, Series		
2017, due in annual installments of \$85,000 to \$1,060,000 through		
December 15, 2028 with interest payable semiannually on June 15		
and December 15 at 3% to 4%.	\$ 4,120,000	\$ 920,000

NOTES TO FINANCIAL STATEMENTS (Continued)

5. LONG-TERM DEBT (Continued)

General Obligation Bonds (Continued)

	C	Total Outstanding	Current Portion
2020 General Obligation Limited Tax Park Bond \$6,445,000 General Obligation Limited Tax Park Bond, Series 2020, due in annual installments of \$315,000 to \$830,000 through December 15, 2033 with interest payable semiannually on June 15 and December 15 at 3% to 5%.	\$	5,780,000	\$ 410,000

Special Recreation Fund	<u> </u>	-	507,164
Total Nonmajor Governmental Funds		-	507,164
TOTAL	\$ 6,	181,899	\$ 6,181,899

NOTES TO FINANCIAL STATEMENTS (Continued)

6. INDIVIDUAL FUND DISCLOSURES (Continued)

Interfund Transfers (Continued)

The transfers resulted from:

- \$1,674,735 transferred to the Debt Service Fund from the General Fund and the Recreation Fund is to subsidize debt costs. The amount will not be repaid.
- \$4,507,164 transferred to the Capital Projects Fund from the General Fund, the Recreation Fund and the Special Recreation Fund is for purchases of capital assets. The amount will not be repaid.

7. JOINT GOVERNED ORGANIZATION - NORTH SUBURBAN SPECIAL RECREATION ASSOCIATION

The District is a member of the North Suburban Special Recreation Association (NSSRA), which was organized by several area park districts in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member district's contribution is based upon a formula set out in the operating agreement.

NSSRA's Board of Directors consists of one member from each participating district. The Board of Directors is the governing body of NSSRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming and master plans. The District is not financially accountable for the activities of NSSRA and, accordingly, NSSRA has not been included in the accompanying financial statements. The financial statements of NSSRA may be obtained from the NSSRA administrative offices at 1221 County Line Road, Highland Park, Illinois 60035.

8. RISK MANAGEMENT

The District is exposed to various risks of loss to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; natural disasters; and employee health.

Since 1984, the District has been a member of the Park District Risk Management Agency (PDRMA), a joint risk management pool of park and forest preserve districts and special recreation associations through which employee health, property, general liability, automobile liability, crime, boiler and machinery, public officials' and workers' compensation coverage is provided in excess of specified limits for the members, acting as a single insurable unit.

Each member assumes the first \$1,000 of property claims each occurrence and has self-insurance retentions at various amounts.

NOTES TO FINANCIAL STATEMENTS (Continued)

8. RISK MANAGEMENT(Continued)

Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers, a Risk Manager and a Treasurer.

The District does not exercise any control over the activities of PDRMA beyond its representation on the Board of Directors.

Initial contributions are determined in advance of each membership year based on the individual member's expenditures as defined in the by-laws of PDRMA, assessment factors based on past member experience and the funding needs for the membership year. The Board of Directors may require that supplemental contributions be made by members to ensure that adequate funds are available to meet the obligations applicable to the membership year. Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

Losses exceeding the per occurrence self-insured and reinsurance limit would be the responsibility of the District. The District is not aware of any additional amounts owed to PDRMA at December 31, 2022.

9. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

NOTES TO FINANCIAL STATEMENTS (Continued)

9. RETIREMENT FUND COMMITMENTS(Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Plan Membership

At December 31, 2022, IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	143
Inactive employees entitled to, but not yet	
receiving benefits	185
Active employees	124
TOTAL	452

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the calendar year ended December 31, 2022, was 0.86% of covered payroll.

Actuarial Assumptions

The District's net pension liability (asset) was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

NOTES TO FINANCIAL STATEMENTS (Continued)

9. RETIREMENT FUND COMMITMENTS(Continued)

<u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date December 31, 2022

Actuarial cost method Entry-age normal

Assumptions

Price inflation 2.25%

Salary increases 2.85% to 13.75%

Interest rate 7.25%

Cost of living adjustments 2.25%

Asset valuation method Fair value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables and future mortality improvements projected using scale MP-2020.

Discount Rate

The discount rate used to measure the total pension liability (asset) was 7.25% in 2022. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the District's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability (asset) to changes in the discount rate. The table below presents the net pension liability (asset) of the District calculated using the discount rate of 7.25% as well as what the District's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

		Current						
	19	% Decrease	D	Discount Rate		% Increase		
		(6.25%)		(7.25%)		(8.25%)		
Net pension liability (asset)	\$	2,585,406	\$	(2,852,661)	\$	(7,119,958)		

10. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the District provides other postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the District and can be amended by the District through its personnel manual. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. The plan does not issue a separate report. The activity of the plan is reported in the District's governmental activities.

b. Benefits Provided

The District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance. To be eligible for benefits, an employee must qualify for retirement under the District's retirement plan. Upon a retiree reaching age 65 years of age, Medicare becomes the primary insurer and the retiree is no longer eligible to participate in the plan, but can purchase a Medicare supplement plan from the District's insurance provider.

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 21 years; the asset valuation method was five-year smoothed fair value; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 2.85% to 13.75% compounded annually and postretirement benefit increases of 2.75% compounded annually.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

Total OPEB liability - beginning	_	740,865		730,775		775,736	842,943	638,259
TOTAL OPEB LIABILITY - ENDING	\$	730,775	\$	775,736	\$	842,943	\$ 638,259	\$ 512,073
Covered-employee payroll	\$	6,261,333	\$	4,955,091	\$	4,702,405	\$ 4,539,777	\$ 5,245,554
Employer's total OPEB liability as a percentage of covered-employee payroll		11.67%		15.66%		17.93%	14.06%	9.76%

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

There were assumption changes in 2019 relating to the discount rate, per capital health costs, retiree contribution rates, percent of future retirees assumed to have an eligible spouse who opts for coverage and the age spread between husband and wife was decreased.

There were assumption changes in 2020 relating to the discount rate, per capita health cost and retiree contribution rates.

There were assumption changes in 2021 relating to the discount rate, per capita health cost and mortality rates.

There were assumption changes in 2022 relating to the discount rate, per capita health cost and trend rates on per capita health costs.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2022

BUDGETS

The Board of Commissioners follows these procedures in establishing the budgetary data reflected in the financial statements. Generally, prior to the December board meeting, the Director submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.

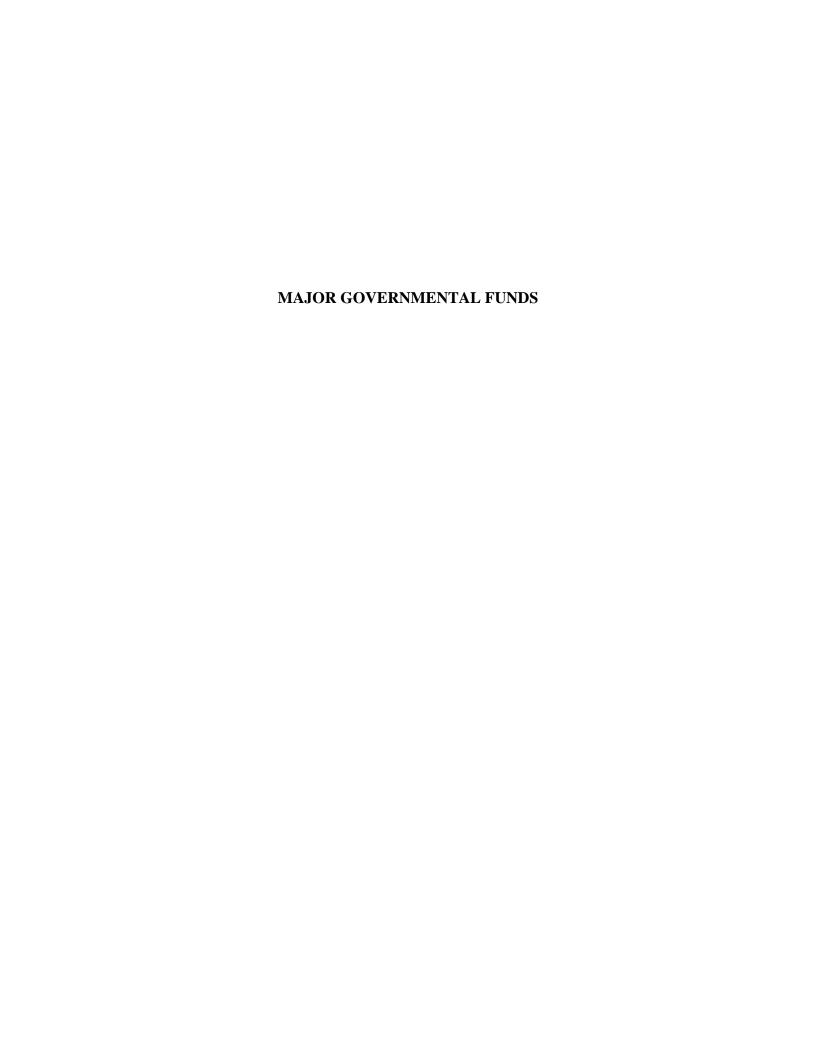

The District's budgetary operations are governed by the appropriation law detailed in the Illinois Park District Code and administered by the Director of Finance.

Notice is given and public meetings are conducted to obtain taxpayer comments. The Board of Commissioners may add to, subtract from or change appropriations, but may not change the form of the budget. Prior to the end of the first quarter of each fiscal year, the budget is legally enacted through the passage of an annual combined budget and appropriation ordinance.

Budgets for the General, Special Revenue, Capital Projects and Debt Service Funds are legally adopted on a basis consistent with GAAP. Budgetary information for individual funds is prepared on the same basis as the basic financial statements. All budgets are prepared based on the annual fiscal year of the District. Budgetary funds are controlled by an integrated budgetary accounting system in accordance, where applicable, with various legal requirements which govern the District. The legal level of budgetary control is at the expenditure category.

Management may make transfers between individual expenditure categories of a fund for up to 10% for the budgeted amount, but not alter the total budget of the fund. Any revisions that alter the total expenditures of any fund must be approved by the Board of Commissioners. After the first six months of any fiscal year, the District Board of Commissioners may, by a two-thirds vote, amend the initially approved budget and appropriations ordinance. Unused appropriations lapse at the end of the fiscal year. The budget and appropriation ordinance was not amended for the year ended December 31, 2022.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds - are established to account for proceeds from specific revenue sources that are restricted by law or administrative action to expenditure for specific purposes.

The Special Recreation Fund is used to account for revenues derived from a specific annual property tax levy and expenditures of these monies to the Northern Suburban Special Recreation Association to provide special recreation programs for the physically and mentally handicapped.
